TOWN OF WATERVILLE

TO THE TAXPAYERS:

This brief report and the accompanying financial statement of the year ending January 31, 1925 should acquaint you with the business of your Town.

ROADS:

This year we have relocated and constructed of steel and concrete a new bridge across High Brook. The approaches to the bridge were rebuilt and graded, together with approximately one-half mile of road near this point. Many new culverts were installed and the road straightened and widened on many curves. The road through the Drake woods was resurfaced and with the addition of more culverts the coming year will be permanently improved. We received State Aid on the road and the High Brook Bridge.

FOREST FIRES:

It is to be deplored that this title should find a place on our annual report again. However, the month of June brought another fire in the Beebe River section which, though less severe than the fire of 1923, burned over several hundred acres at considerable loss and expense to the Town and the property owners involved. The total expense to Town and State amounting to approximately \$1800.

It is our present desire to continue road and bridge work under State Aid and supervision making improvements permanent as far as possible. This year it will be necessary to rebuild two small bridges in the Town of Thornton between Six Mile Bridge and the Sandwich Notch Road, and to repair or rebuild Snow Brook Bridge and one smaller one in Waterville.

Attached herewith is a Financial Statement for the year ending January 31, 1925

David S. Austin 2nd
